Lieutenant Greely Declines Promotion.

WASHINGTON, August 6.

It is understood that Secetary Lincoln has decided upon the promotion of the survivors of the Greely party. Steward Berdenbeck and private Carroll will be made Sergeants, and Sergeants Brainard, Frederick and Long Second Lieutenants. Lieutenant Greely, it is understood has refused to accept a promotion to a Captancy, except through the ordinary course. This action on his part is highly appreciated by those officers whose promotion would have been deferred for two or three years had he accepted the office. He will be ordered to Washington about the 1st of November and will be occupied a year or so with his report.

Cleveland's Guilt Admitted.

NEW YORK, August 5th.—The Post in a leading editorial this evening says: It is admitted by Governor Cleveland's friends that twelve years ago he formed an irregular connection with a widow with two children. He accepted the paternity of a child, made provision for it, and subsequently obtained posession of it. Believing the mother, from her intemperate habits, unfit to have the care of the child, he placed it in an orphan asylum. He also recovered it, after it was stolen by the mother, fearing bodily injury to the child. The Post denies that there was seduction or breach of promise.

Figures published by the Government Bureau of Statistics show that the consumption of spiritous and malt liquors is increasing in this country. In the three years ending with 1883 the consumption of distilled spirits increased 28 per cent.; of wine, 24 per cent., and of malt liquors, 63 per cent. The increase of population on the other hand, was probably not over 10 per cent.. The quantity of intoxicants (beer included) consumed in the period named was equal to four gallons per head each year for every man, woman and child in the country. Leaving out the women and children, the average consumption per man about twelve gallons a year. The Bee suggests that if the increased consumption of spirituous and malt liquors be taken as an indication of the state of public opinion on the question of total abstinence, the statistics cannot be regarded as encouraging to the hopes of the Prohibitionists.
